

# elevate™

powdered alkali builder

**linden series** combines high-performance with formulations that preserve the soft feel and fresh scent to all fabrics. High tech solutions to common spot and stain problems allow you to get the most use possible from your linens and fabrics.

**elevate** is a 100% active powdered heavy duty laundry builder which enhances the cleaning power of detergents, providing deep cleaning action on heavy soiled textiles while saponifying grease, oil and fats in very oily stains, and provides powerful soil suspending properties to wash bath.

## FEATURES

- Dramatically accelerates the cleaning process especially of heavily soiled textiles by opening up the fabric fibers and begins releasing trapped soil particles.
- Super concentrated formula causes saponification of oils, fats and grease in oily stains thereby solubilizing them into the wash liquor.
- Extremely versatile and economical as it allows much flexibility in optimizing cleaning formulation with companion detergent powder.
- Prevents fabric graying with powerful soil suspending functionality built into product.
- 100% biodegradable and environmentally friendly; contains no phosphates.

## IDEAL FOR

Your Santec technical representative will design the most economical and effective formulation to fit your specific needs.

## OPTIMAL APPLICATIONS

Commercial laundries, hotels, motels, health care facilities, nursing homes, restaurants, food plants and meat plants.
