mold | mildew remover  
search and destroy

**fusion series** is our line of housekeeping products designed to be easy to use, efficient and safe. From state-of-the-art dispensing solutions to clear, simple color-named packaging, we've created fusion products in ways that make housekeeping a pleasure.

**Olive** is a powerful chlorinated multi-purpose cleaner that can be used in the kitchen, bathroom, and in the patio with equally impressive results. In the bathroom, it quickly removes tough mold and mildew without damaging most surfaces. In the kitchen, it rapidly bleaches coffee, tea, and food stains, and removes tenacious adsorbed oils from plastics, china, glass, and metal surfaces. In the patio and outdoors, it's very effective on vinyl and plastic furniture, cement pool areas and more.

## features

### Bathroom and Patio (use as a RTU):

- Fast acting on mold, mildew, bacteria, and stubborn stains on sink tops, counter tops, tiles, non-porous surfaces, bathtubs, vinyl mats, shower stalls and curtains.
- Easy to use - just spray on and let dry; watch mold, mildew, and other stains disappear almost instantly.
- A pleasant fragrance makes it easier to work with the chlorine present in the formulation.
- Effective on outdoor vinyl and plastic furniture, awnings and vinyl canopies, outdoor furniture, walls and ceilings, and cement pool areas; just spray on and the product will do the rest!

### Kitchen (use 1/2 oz./gal. dilution):

- Simultaneously acts as a destainer and a detergent cleaner - not only rapidly bleaching coffee, tea and other food stains but also removing difficult rancid coffee oils and tannins from warewash utensils and equipment alike.
- Proprietary blend of silicated alkalis allows product to be safely and effectively used on virtually all surfaces encountered - including glass, china, aluminum, stainless steel and plastics.
- Concentrated formula renders product very economical - as little as 1/2 ounce per one gallon of water is sufficient for most applications. See directions on label for de-staining plastic and china dinnerware, coffeemakers, and thermal portable type tea and coffee dispensers.

**optimal applications** Use for most bathroom surfaces including tiles and grout, tubs, fiberglass, glass shower doors, vinyl curtains, counters, sinks and no-wax floors. Also use for awnings and vinyl canopies, vinyl tops of boats, tents, outdoor furniture, walls and ceilings and cement pool areas.

**ideal for** Hotels, motels, health care facilities, nursing homes, schools, sports clubs, recreational facilities, and office buildings.
