

opec[™]
silicated alkali builder

st
santec[®]
clean needs.met.[™]

linden series combines high-performance with formulations that preserve the soft feel and fresh scent to all fabrics. High tech solutions to common spot and stain problems allow you to get the most use possible from your linens and fabrics.

opec provides deep cleaning action on soiled loads and saponifies grease, oil and fats. It swells linen fibers for easier removal of soils, and is uniquely effective in removing oils from polyester table linens. It will optimize the performance of any detergent.

FEATURES

- Excellent laundry booster compatible with all commercial laundry detergents.
- High level of silicated alkalinity enhances and accelerates the cleaning process especially of oils and greases on textiles by emulsifying and removal of soils trapped in linen.
- Uniquely effective on petroleum and organic based oils embedded in a wide range of polyester spun textiles found in the marketplace.
- Economical and environmentally friendly by reducing levels of laundry detergent necessary in cleaning process.
- Product contains no phosphates.

IDEAL FOR

Your Santec technical representative will design the most economical and effective formulation to fit your specific needs.

OPTIMAL APPLICATIONS

Commercial laundries, hotels, motels, health care facilities, nursing homes, restaurants, food plants and meat plants.

PRODUCT SPECIFICATIONS
