

sage

premium matte floor finish

incognito

fusion series is our line of housekeeping products designed to be easy to use, efficient and safe. From state-of-the-art dispensing solutions to clear, simple color-named packaging, we've created fusion products in ways that make housekeeping a pleasure.

Sage is an acrylic copolymer, metal-interlocked, matte floor finish designed specifically for facilities requiring an excellent coating but preferring a low gloss appearance. It can be applied with most maintenance methods and equipment on all types of floors. It is easy to apply, levels with no streaks or mop trails, and has excellent resistance to scuffs and black heel marks. Each coat dries in 30 to 45 minutes.

features

- Delivers desired low gloss appearance without compromising on protective attributes typical with high gloss finishes.
- Superior leveling and durable film formation even in poor drying conditions.
- Excellent black heel mark and detergent resistance.
- Superior extended wear and protection for floor covering.
- Decreases labor and maintenance as finish is extremely durable.

optimal applications Health care facilities, nursing homes and other locations requiring robust, low gloss floor finish.

ideal for Hotels, motels, health care facilities, nursing homes, schools, super markets, department stores and office buildings.
