

thirty two

destainer + cleaner

resolve series represents a complete kitchen solution. Simple, numerically named, effective dish detergents, degreasers and sanitizers for both manual and automatic cleanup keep your food preparation areas sparkling with minimal effort.

thirty two is a non-abrasive granular peroxygen based destainer and cleaner that safely and rapidly removes coffee and coffee oils, tea and food stains from plastics and china dinnerware, as well as from aluminum and stainless steel coffee and tea makers.

FEATURES

- Proprietary blend of peroxygen bleach, silicated alkalis and chelating agents allows product to be safely and effectively used on virtually all surfaces encountered - including glass, china, aluminum, stainless steel and plastics.
- Simultaneously acts as a destainer and a detergent cleaner - not only rapidly bleaching coffee, tea and other food stains but also removing difficult rancid coffee oils and tannins from warewash utensils and equipment alike.
- Concentrated formula renders product very economical - as little as 1.5 tablespoons per one gallon of water is sufficient for most applications.
- Has much longer shelf life than competitors' destainers as reactive compounds are conveniently maintained in low moisture atmosphere of readily closable plastic jar.

OPTIMAL APPLICATIONS

Nursing homes, hotels, motels, hospitals, schools, restaurants, cafeterias and food processing plants.

IDEAL FOR

Destaining and cleaning of china dinnerware, coffee mugs, coffee and tea makers, thermal coffee and tea dispensers.
