

turf™

enzyme built detergent

st
santec®
clean needs.met.™

linden series combines high-performance with formulations that preserve the soft feel and fresh scent to all fabrics. High tech solutions to common spot and stain problems allow you to get the most use possible from your linens and fabrics.

turf is a robust all purpose powdered laundry detergent that is superior for cleaning both modern synthetic fabrics, as well as cotton and cotton-blend fabrics, especially athletic uniforms, in industrial and institutional use.

FEATURES

- A powerful blend of enzymes, nonionic and anionic surfactants, buffered alkalis, organic water softeners, soil suspending agents and optical brighteners.
- High concentration and blend of emulsifiers, combined with specially tailored enzymes, affects its superior performance on synthetics, as well as cotton and cotton-poly blends, especially athletic uniforms.
- Formulation acts to lift soils, clays and oils while enzyme acts to remove grass and blood from fabric.
- Water conditioning agents help prevent redeposition of soils onto fabrics.
- All ingredients are biodegradable and the formulation contains zero phosphates.

DIRECTIONS FOR GENERAL USE

For light to medium soils use 8 to 16 oz. Turf per 100 lb. load. For heavy soils use 16 to 32 oz. Turf per 100 lb. load. To optimize use levels for your specific needs contact your Santec technical representative.

OPTIMAL APPLICATIONS

Industrial and institutional laundries, sports clubs, school and university athletic facilities.

green cove™
